MBA 609 – BUSINESS SIMULATION
“New Restaurant Business Plan and Tasting Competition”
Fall 2010
Professor Walter J. Ferrier
walter.ferrier@uky.edu

OBJECTIVE

The purpose of this one-week course is to introduce students (in a fun, interactive way) to the complexities, uncertainties, and challenges associated with a wide variety of business functions that top managers and entrepreneurs have to juggle – e.g., design/introduce new products, analyze the marketplace/competitors, marketing, purchasing, production/operations, finance/accounting, human resources, business plan development, and so on. This strategy-as-functional integration simulation will serve as dynamic, experiential springboard for the upcoming core MBA modules.

For this year’s simulation, six teams of students will:
- Develop a business plan for a new restaurant (of any kind) in Lexington
- Design, shop for, cook and serve their restaurant’s signature dish to a panel of judges
- Pitch/present their business plan to the judging panel during the meal

Business Plan: The business plan should include, among other things, details related to your restaurant’s overall concept, market position, customer segment, menu/wines, location/retail space, décor/uniforms, marketing/promotion, financing/cash flow projections, return on investment, etc. Business plans will be strictly limited to 10 pages, including diagrams, tables, photographs, etc.

Kitchen walk-through: Your teams will visit the cooking and dining facilities at the Lemon Tree restaurant and cooking laboratory kitchen in Erikson Hall. Here, our MBA 606 faculty partners, Dr. Sandra Bastin (Department of Nutrition and Food Science) and Chef Bob Perry (Coordinator of the Food Systems Initiative, College of Agriculture), will provide a briefing on your use of the cooking equipment, food presentation and service, dining room facilities, kitchen safety, etc.

Test Kitchen: Your team’s “cooking and service team” – i.e., executive chef, sous chefs, servers, bus boys, dishwashers – will have a cooking and dining service practice run at the Lemon Tree and cooking lab kitchen. You will prepare two servings of your signature dish.

Best New Restaurant Competition: Although you will develop a complete menu, your team will cook and serve one “signature dish” from your menu that best represents your new restaurant concept. You will prepare and serve 4 servings of this dish; two for the judging panel and two to share among the other MBA students in your group. Your signature dish must include at least one *Kentucky Proud* ingredient or item. Each team will have a scheduled 20-minute block of time, during which you will serve your signature dish and present your business plan to the judging panel. This means that you should begin cooking your signature dish prior to your scheduled presentation in order to serve it to the judges in its ideal condition and in a timely manner. The judges will be given a fixed amount of *Monopoly* money that they can invest in the new restaurant(s) of their choosing. The winner will be the new restaurant that receives the most “start-up cash.”
