New Business
• New Student Introductions
• Reminders of Teaching Apprenticeship and Research Assistantships
• Planning of Spring Colloquium (Seeking suggestions)
• Curriculum changes (Discussion). Electronic Vote to follow

• There are several changes that we discussed in the Spring that need to be voted on. Below is a synopsis of the changes that were proposed via the Curriculum Committee.
• Remove the Term Cognate and Discipline Specific Courses from our course description.
• Revise the Seminars that we currently offer.
• Remove Introduction to Research
• Offer the Research Seminar each semester. It would be coordinated so that faculty and students could participate and ideally be coordinated at a time that is consistent with the monthly faculty grant presentations.
• Change the number of hours for Research Methods from 10 credit hours to 6-9 credits hours. This would reduce the total degree credit hours and align the “total” divisible by 3, which is typically the case for statistic classes.
• One recommendation of the Curriculum Committee was to require students to take 2 of 3 pro-
  seminars not including the research seminars.
  o Another suggestion based on student feedback is to use the Graduate School Certificate coursework for the Teaching and Learning Course. Specifically the certificate requires the completion of EPE 672. If this is the case, there would be 2 didactic courses: Grant Writing and Surviving and Thriving in Academic Culture. If not, students would chose 2 of the available 3 didactic courses and participate in the research seminars.
• Revise the total number of hours in the Areas of Specialization or Specific Coursework equal to 12. It was previously, “Students must take a minimum of 6 credits in discipline-specific courses and a minimum of 6 credits in cognate courses outside the student's discipline”. The additional 3 credits may be within or outside the student's discipline.
• Recommend that students must pull his/her committee together to create a program of study by the end of the first semester after matriculation.
